About SLIET, LONGOWAL

Sant Longowal Institute of Engineering and Technology (SLIET), a deemed to be University was established by Ministry of Human Resource Development, Government of India in the year 1989 to provide technical education in the emerging areas of Engineering and Technology. A lush green campus houses more than five thousand students in various disciplines and streams viz. thirteen integrated certificates & diploma, nine degree, seven post graduate and Ph.D programmers in various disciplines of Science, Engineering and Technology.

ABOUT THE ONLINE STC

A Chemist's Glance-From virus to living and non-living matter on this universe is interplay of molecules in matter. A peep into matter requires the modern analytical tools for their meticulous diagnoses. Thus, the importance of the Short Term Course, "*Analytical Techniques in the realm of Molecules & Materials*" is way beyond the domain of Chemistry and extends to the other fields of Science and Engineering viz. Pharmaceutical Science, Biotechnology, Food Science Engineering, mechanical Engineering, Chemical engineering etc. The five days STC will focus on the emerging analytical techniques as XRD, Multidimensional NMR, Separation Techniques etc. applicable in the field of Polymer Chemistry, Emerging Materials, (Metal organic framework etc.). Further, theoretical approaches for material design will be an integral part of the course. It is perceived, the STC will be helpful for novices to veterans in the field of Science and Engineering.
